IPELC MISSION STATEMENT

Irving Park Early Learning Center working in collaboration with the Chicago Public Schools, pledge to provide the highest quality of care and education of young children by facilitating their Social Emotional, Academic, and Physical development. We promote success and a desire for lifelong learning in both our children and staff.

IPELC PHILOSOPHY

Irving Park Early Learning Center believes that our children learn through play.

We believe that our learning environment should foster curiosity and exploration.

We believe that our curriculum should be diverse from classroom to classroom and age group to age group. It should also be geared to each child's individual developmental needs.

We believe that all children are individuals and learn in their own way and at their own pace.

We believe in positive guidance techniques by establishing age appropriate limits which assist them in functioning in their world.

We believe our program strength lies in the dedication and commitment of our staff. Our staff creates a caring and nurturing environment that enhances each child's individuality, creativity and self-image.

We believe that parents and family are the most significant persons in the child's life. Therefore we maintain an open door policy and encourage parent participation.
